10 July, 2019

Dear Paul,

By way of introduction, The Ichikowitz Family Foundation's philanthropic initiative centre on innovation and capacity building through arts and heritage education, and socio-economic empowerment. In all our focus areas, we aim to help build a continent where people are encouraged to dream big, to challenge the inconceivable and achieve the impossible.

In the spirit of Mandela day and Mandela month, we as the Ichikowitz Family Foundation would like to donate over 3000 art works to schools and community centres around Alexandra and other disadvantaged areas. Our hope is that these artworks can be given either as gifts to the students, as educational material for classrooms or can be used to fund raise money for the schools by having school auctions and the like..

We would love The Greater Alexandra Tourism and Heritage Association to help us find schools and community centres around the area and distribute these art works to the schools and community centres around Alexandra. Perhaps even Paul, you would also be interested in spreading the work of your Organization as we handout these art works during this Mandela month.

Your help would be greatly appreciated.  
Please don't hesitate to contact us. Look forward to further discussions.

Kind Regards,

Mandy Jacobson
